Working with architects & designers worldwide to produce unique

expressions of bathroom elegance

As a designer, engineer, and manufacturer of custom architectural metalwork, Palmer specializes in the production of America's finest Custom Vanity Sink Legs.

Sink Legs do not simply play a supporting role in the design of your vanity, they play the defining role. The choice between elegant legs or just a wood box changes everything...

A Palmer leg system will integrate perfectly with your unique choices of personal colors, wall, floor, and counter materials, plumbing fixtures, and style.

Palmer washstands will support any choice of counter material, such as granite, marble, quartz, porcelain, cement, Corian, glass, metal, or wood. You provide the counter, and Palmer will design the appropriate leg system exactly to your specifications ...a perfect marriage.

Engineered in solid brass and richly finished in a full palette of lustrous platings and hand-rubbed patinas, Palmer Industries brings you the finest in custom vanity sink legs, perfectly at home in your elegant master bedroom suite or your understated powder room.

Step-by-Step Instructions

Go to the specific style page from the index on the right.

Choose the Configuration that matches your counter size and the number of sinks

Select a Finish to determine the Base Price of the System

Add any custom size charges as required by the counter width

This will provide the total Retail Price for the specific System, Finish, and Size.

Turn to the "Options & Finishes" tab page to select shelving, shelving supports, options, and accessories

SIZE CHARGES are based on COUNTER WIDTH, COUNTER DEPTH, and LEG HEIGHT as defined below:

For any configuration or other custom design features not covered in this guide, please contact Palmer for a quote.

THE LIVING FINISHES...

AGING WITH BEAUTY, GRACE,
AND A RICH PATINA

The living finishes offer an ever-changing patina, as their tone and luster will gracefully age with time and unique environmental conditions. These hand-crafted artisanal finishes are subject to variations in lightness and color.

THE PVD FINISHES...

DURABLE, COLORFUL,
AND TARNISH-FREE
FINISHING TECHNOLOGY

The PVD finishes (Physical Vapor Deposition) incorporate a coating of specialized metal that provides a durable, tarnish-free, and lasting color tone.

- Purchasing Policy:** Palmer is sold only through authorized Palmer distributors (dealer display requirements apply). Possession of this catalog does not constitute an authorization to sell Palmer products.
- Terms:** Net 30 days upon established credit approval. Payment by business check preferred. Credit card payments and wire transfers may be allowed (Palmer must authorize), and will incur processing fees.
- Minimum order:** There is no minimum order requirement.
- Delivery and Freight:** Palmer reserves the right to select the final carrier of any shipment. Palmer ships via UPS with our own account (freight prepaid), and will invoice the dealer for all shipping costs, without exception. We do not ship using a dealer's UPS account, or any other shipping method. Each leg system is packaged individually, regardless of total order quantity (unless otherwise specified on high-volume projects). A delivery charge will be assessed to each leg system, and shall consist of the total of all packaging, boxing, standard ground UPS shipping costs, and insurance. There is no pickup available. Drop-Ship orders will incur additional shipping costs, and a signature will be required at the time of delivery.
- Claims and Returns:** Any claims for damages, shortages, and incorrect merchandise must be reported to Palmer within 10 days of delivery. Please confirm all washstand specifications and dimensions prior to installation. Palmer is not responsible for labor associated with the replacement of incorrect product.

Palmer consoles and shelves are all fabricated to order, and as such, are NON-RETURNABLE and NON-CANCELLABLE under any conditions. Palmer Drawing and Design fees are NON-CANCELLABLE and NON-REFUNDABLE.

- Warranty:** Palmer warranties the leg system against any mechanical failure of parts for the life of the product when properly installed and used for the intended purpose only. This warranty covers parts only; labor is not included. Chrome, Nickel, and PVD finishes carry a one-year warranty. Custom finishes and living finishes such as Un-Lacquered Brass, Oil-Rubbed Bronze, and Raw Brass are not warranted. Palmer custom and living finishes are hand applied, and as such, are subject to natural variations in color and texture consistent with related products in the market. Different components, such as tubing and fittings, are likely to have slightly different color tone due to their unique metal composition and the high degree of hand craftsmanship involved with the finishing process. Our legs are superbly finished, but they are not jewelry. When "defects" occur, they should be viewed at approximately the same angle and distance that you would view the stand when installed: i.e., the leg is on the floor and you are standing. If the defect is visible at that vantage point, it may be considered a legitimate reject; if not, it is considered to be within industry standards for bathroom furniture. The same standards would not apply to a faucet, for example, since it is viewed at eye level and must be "perfect".

7. **Internet Selling Policy:** Palmer does not allow the selling of our products via the Internet. Palmer products are to be marketed and sold within the dealer’s service area only. If Palmer products are presented on a dealer’s website, images and associated copy used must satisfy our specific guidelines. Palmer must be contacted for approval prior to any images or information being posted on a dealer’s website.

8. **M.A.P. Policy:** Advertised prices of products may not appear at a discount of greater than twenty-five percent (25%) below Palmer’s current retail price. For repeated violations, Palmer may suspend or terminate the Reseller’s authorization to sell Palmer products. It is our view that the advertising of steep price discounts devalues our products, brand, and dealers.

9. **Rush Service:** Palmer offers a Rush Service to our dealers, at an additional charge. This charge will be assessed upon evaluation of the order complexity, customization, quantity, options, and finish. Rush service and charges must be indicated on the dealer’s purchase order, and a Palmer Order Form, with the Rush option selected, must be submitted with the order.

10. **Drawing/Design Services:** Palmer offers complete drawing and design services for custom units. (All our standard model specifications and drawings can be found on our website.) A drawing/design fee will be assessed upon evaluation of the project and the requirements of the specifier. Drawings can be provided in PDF or DXF format. Drawings and subsequent signed drawing approvals are mandatory for any projects falling outside our standard product offering (style and configuration). Drawing and design fees are NON-CANCELLABLE and NON-REFUNDABLE.

11. **Ordering Procedure:** A Palmer Order Form must be submitted with every custom-size order, Rush order, orders with any options or modifications, and orders including any Palmer shelf. The submittal of the Order Form is mandatory, and will expedite the order.

12. **Disclaimer:** The information contained within this catalog is intended to provide information about products and services available for purchase from Palmer Industries, Inc. (“Palmer”). Palmer washstands are the natural choice for supporting china or porcelain sinks...the perfect marriage.

Palmer leg systems can be sized to accommodate almost any choice of china sink.

Sizing a stand properly to a china sink can be accomplished three ways:

1. Choose a china sink from our online database located on our website Resources page at sinklegs.com/sinks. This database represents a current listing of sinks that Palmer has evaluated. Palmer will build the stand to fit the sink exactly.

2. Drop-ship the sink directly to Palmer for proper sizing evaluation. Palmer will then take all the appropriate measurements, and determine a washstand size that fits the sink perfectly.

3. Order the washstand larger than required with the intention of cutting the leg system on-site to fit the sink. Note: shelves cannot be field cut.

Counters MUST be securely fastened to the wall, independent of the leg system, with the Palmer Wall Bracket or equivalent. This is critically important to the structural integrity of the system.

PALMER MODULAR ASSEMBLY FEATURES

All Palmer washstands are shipped partially assembled, and many, but not all, can be easily cut on-site to reduce the size.

As shown, the legs are fully factory assembled, so only the Horizontal Front Crossbar and Wall Return Crossbars need to be assembled on-site.

Every Palmer washstand includes a complete hardware package for efficient installation.
