ICERA

St. Thomas
BY ICERA

Since 1995, Icera and St. Thomas Creations have established a reputation among professionals for excellence in one-piece, comfort-height toilets with performance flushing and premium design.

In step with our focus on innovation, Icera's product selection emphasizes contemporary and transitional style elements for a balance of modern form and function.

A premium toilet is the most technically-complex item in the bathroom, and we take pride in being at the forefront of product innovation. In addition to high-efficiency toilets, we also offer matching lavatories and product suites for a complete, unified bathroom experience.

MUSE

Embracing the modern aesthetic of simple elegance, the Muse suite combines design lines with graceful curves to ensure a distinctive, sophisticated bathroom style. Naturally, the one-piece toilet becomes the focal point of the bathroom, and its performance and water efficiency are equally notable.

The Muse water closet features a chair height, elongated bowl for comfort. Using only 1.28 gallons per flush, the toilet is EPA WaterSense-compliant. Best of all, the flush mechanism is quiet. A premium, soft-close toilet seat is included.

All products include our antimicrobial MicroGlaze™ finish as a standard feature.

WILSHIRE

EVEN THOUGH 70% OF THE EARTH'S SURFACE IS COVERED BY WATER, LESS THAN 1% IS AVAILABLE FOR HUMAN USE.¹

In California, this statistic is all too real. The Colorado River rights were drafted in the 1920s, with barely 30 years of records of which to base the decision. It just so happens that those were probably the wettest years on record, as compared to the natural water flow through the river.

WATER

CONSERVATION

INCREASINGLY MORE PRECIOUS.

Droughts have made water allocation even more difficult and major reservoirs have dropped to historic lows, with Lake Powell falling to less than 1/3 of its capacity in 2005. A study by the Scripps Research Institute in 2008 predicted that both Lake Mead and Lake Powell stand an even chance of dropping to useless levels or "dead pool" – by 2021 if current drying trends and water usage rates continue.²

Lake Mead (above) and Lake Powell (below) showing the "bathtub ring" left behind by low water levels.

MORE IMPORTANT THAN EVER BEFORE.

The Environmental Protection Agency (EPA) has developed WaterSense®, an EPA partnership program developed to make it easy to purchase products that perform well, help save money and reduce the use of precious water every day.

Icera/St.Thomas is proud to be an EPA partner of WaterSense®-compliant products.

¹ epa.gov/WaterSense

² Scripps Research Institute

TOILETS ACCOUNT FOR NEARLY 20% OF ALL HOUSEHOLD WATER USAGE.

Whether you're undertaking a bathroom remodel or new construction, choosing to install a Water-Sense® certified toilet is one of the easiest ways to reduce water consumption in the home. Icera and St. Thomas Creations have long been recognized leaders in the creation of beautifully crafted water closets, bidets, lavatories and other accessories that perform as exquisitely as they look.

EcoQUATTRO™

INTRODUCING EcoQUATTRO FLUSHING TECHNOLOGY – THE FIRST COMPLETE LINE OF HIGH PERFORMANCE FLUSHING TECHNOLOGY.

EcoQUATTRO is the most advanced flushing system on the market today. Designed for extraordinary flushing performance, it addresses the environmental efficiency and poor performance issues long associated with the use of 1.28-gallon water closets in the home. Best of all, EcoQUATTRO uses 20% less water than traditional 1.6-gallon models. With EcoQUATTRO Flushing Technology, 1.28-gallon water closets are more efficient than ever before. So you won't have to sacrifice beauty for performance ever again.

1. EXTRA LARGE 3" FLUSH VALVE.
 - 50% larger than conventional valves, allowing maximum water force into the bowl.
2. PRECISION RIM JETS.
 - Computer-designed positioning to optimize bowl cleaning.
3. DIRECT-FED WATER JET.
 - Delivers maximum water force, providing exceptional waste removal from the bowl.
4. LARGE 2-1/8" GLAZED TRAPWAY.
 - 28% larger than industry standard, and designed to virtually eliminate clogging.

MICROGLAZE™ SURFACE

Your water closet will stay cleaner longer with our specialized MicroGlaze™ coating. Available in White and Biscuit colors, dirt and hard water deposits are more easily removed than with traditional glazing applications.

BISCUIT GLAZE

WILL YOUR TOILET STAND THE TEST OF TIME?

A toilet is a high-use product that will be used many times throughout the day. For that reason, it is important that your toilet hardware stand the test of time.

Used widely to enhance appearance, function and performance, metal finishing also can help to smooth surfaces, make a product last longer and contribute to cleaning ease.

By providing its customers options in metal finishing, Icera/St. Thomas Creations can assure the highest quality products as well as greater decorative appearance.

THE BEST OF SHOW

PREMIUM SEATS

When you walk into a bathroom that has an Icera toilet, you know you have a homeowner with discriminating taste. Featuring water closets with comfort heights, elongated seats and lids that close quietly and discreetly, Icera products offer all the latest special features.

QUIET AS A MOUSE

Whether replacing a toilet seat or an entirely new toilet, you'll want to be sure you have the latest in seat technology. All Icera water closets come equipped with a built-in Slow Close seat that closes quietly with each and every use, eliminating noisy seat slamming once and for all.

EASY TO CLEAN

A conventional toilet seat can get pretty messy around the hinge area, making it a real chore to clean. Icera's Quick Release seat system comes complete with hinges that, with the touch of a button, allow you to remove the lid easily for deep cleaning in all the hard to reach places. When finished, simply glide the lid back into place.

LIMITED LIFETIME WARRANTY

Icera provides a LIMITED LIFETIME WARRANTY for its Icera and St. Thomas Creations branded vitreous china and fire clay plumbing fixtures to be free of defects in material and workmanship. This warranty is extended only to the original purchaser and installer of the product. This warranty is non-transferable.

Icera will, at its election, repair, replace or make appropriate adjustments where Icera's inspection discloses any such defects occurring in normal usage within the warranty period after purchase. Comparable products will be offered as replacements for products no longer available.

Icera is not responsible for removal or installation costs. Use of in-tank toilet cleaners will void the warranty. This warranty is extended only to the original purchaser and installer of the product. This warranty is non-transferable.

Authorized Resellers

Warranties are not applicable to products sold by unauthorized resellers. The consumer accepts responsibility to research the integrity and reputation of the reseller to ensure they are authorized to sell and provide appropriate pre purchase and post purchase service. Internet resellers should be particularly scrutinized as they are very difficult to evaluate and often provide very limited or no customer service.

This warranty applies to unmodified products when properly installed and maintained per factory instructions for their normal and intended non-commercial application. Excluded are all industrial, commercial and business usage, whose purchasers are hereby granted a two-year limited warranty. Icera is not responsible for removal of defective product or installation costs of replacement pieces.

Excluded from coverage through this warranty are items used as plumbing fixture trim, various fittings, toilet bowl seats, and tank flushing mechanisms. Changes in finish gloss, scratching, staining, and other effects from chemical use, water, and atmospheric conditions are not considered manufacturing defects but are considered normal wear and tear. Variations in color will occur naturally due to manufacturing processes and are not covered under this warranty.

Icera reserves the right to make changes in product design, manufacturing process, packaging, or availability at any time without notice.

To obtain warranty service, contact Icera either through your dealer, plumbing contractor, by writing Icera, Attn: Customer Service Department, PO Box 27777, Santa Ana, CA 92799 or online at service@icerausa.com. **Proof of purchase is required in processing all warranty claim requests.**

IMPLIED WARRANTIES INCLUDING THAT OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. ICERA AND/OR SELLER DISCLAIMS ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states/provinces do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of special, incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which may vary from state/province to state/province.

This is Icera's exclusive written warranty. This exclusive written warranty is issued in lieu of all other warranties, expressed or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose.

would like to thank our industry partners for their assistance in the production of this catalog.
